

Deep End

Triathalon

Something got me feeling better than I could
Roll the weed up, light it, smoke it, like I should

Something got me feeling better than I could
Roll the weed up, light it, smoke it, like I should...

Something got me feeling better than I could
Roll the weed up, light it, smoke it, like I should

Something got me feeling better than I could
Roll the weed up, light it, smoke it, like I should

Lately I can't focus
Work too much
And deal with bullshit
On my day off
I'm just hoping
That my day one
Isn't broken up
About me working late and stuff
Today I'll eat some cake for lunch
Go back to my room
And watch another show
Like everyone

Lately I can't focus
Work too much
And deal with bullshit

Lately I can't focus
Work too much
And deal with bullshit

Lately I can't focus
Work too much
And deal with bullshit

Lately I can't focus
Work too much
And deal with bullshit
