

Down

Triathalon

You're always letting me down
I guess I'll never find out

Last time
I saw
Something
I can't argue
This time
I lost
Someone
That I don't belong to

You're always letting me down
I guess I'll never find out

You're always pulling me down
And I just want to get out
You're always pulling me down
And I just want to get out

Thought I
Loved you
But I
Never could belong to
Someone
Untrue
I can't argue

You're letting me down
I guess I'll never find out

Last time
I saw
Something
I can't argue
This time
I lost
Someone
That I don't belong to

You're always pulling me down
And I just want to get out
You're always pulling me down
And I just want to get out
