

And if you want some peace of mind  
You'll find it in a matter of time to go  
But if you like the way she lies  
Tell me does it matter what's on her mind

Gotta be alone all this talk is uncomfortable  
Find out what you need seems to me that (you want it bad)  
Gotta be alone gotta stop playing telephone  
Find out what you need seems to me that (you want it bad)

(You want it bad)

I'm sentimental on the side  
Doesn't really matter what's on your mind (you want it bad)  
Just show me where the error lies  
In my head decided to say goodnight (you want it bad)

Baby, I want to stay the there  
I'll only stay a night, want you to live inside  
Baby, just thinking maybe  
I want to feel you tight, come on we'll still be fine

Why you wanna make it now?  
Please don't act like you ain't freaking out  
I'm so tired of the sleeping 'round  
Never got the time to write my feelings down  
We just working we just living now  
Something in the air got me singing 'bout  
How I'm never there when it's working out  
And why you never care slowly burning out

Oh drip drip drip don't think bout it  
Don't take it personally  
Something's got a hold of me  
Will we make it on the road we'll see

Oh drip drip drip drip think about it  
Drip drip don't think about it  
Don't think, don't think about it, don't think  
Drip, drip

Oh drip drip drip drip, don't think about  
Don't take it personally, why  
Something's got a hold of me  
Will we make it on the road we'll see
