

Usually, I just get by  
Laid back with my arms tied  
I'll be yours if you're mine  
I can't have you, I tried

It's getting harder to be  
I know exactly where you are  
It's getting harder to see

This feels like it's not right  
We both know it's not time  
Thinking 'bout you all night  
Being stuck, that's not fine

It's getting harder to be  
I know exactly where you are  
It's getting harder to see

I just wish we had time away  
Maybe, baby, you know  
I could have you one night, someday  
Baby, we'll take it slow  
I've been feeling so strange lately  
Maybe, maybe you know

It's getting harder to be  
I know exactly where you are
