

Feeling

Triathlon

I've been sad back and forth
Holding my head, I'm laying on the floor
I've been mad back and forth
Strapped to my bed, I don't know anymore

Feeling
I've been feeling
All these thoughts up in my head
Shit got me heated
Dreaming
I've been dreaming
All these thoughts up in my head
Shit got me heated

Sometimes, I feel
When something's wrong
Sometimes, I fear
Switch something off
I know, I hope
I go, I won't
I hope, I go
I know, I won't

Feeling
I've been feeling
All these thoughts up in my head
Shit got me heated
Dreaming
I've been dreaming
All these thoughts up in my head
Shit got me heated

Tell me the truth, I followed you
I follow through, don't know what to do
Is it me? Am I making moves?
I'm hating you, give me the truth
I'm losing you

It feels good
To let this out
I wish you could
Put this down
Stuck inside a situation
This shit got me imitating
Watch my back 'cause I'm impatient
I'm in this glitch like
Stuck inside a simulation
This shit got me feeling crazy
Watch my back 'cause I've been waiting
I'm in this glitch like

I've been sad back and forth
Holding my head, I'm laying on the floor
I've been mad back and forth
Strapped to my bed, I don't know anymore
