I know you're tracing around me, it's always the same vibe
Tell me I'm wasted when I've been lost all in my fake life

Anywhere that you go
I'll be waiting right here for you, babe
I don't think you should know
Hurts too much, I'm sorry, I won't change it

Anywhere that you go
I'll be waiting right here for you, babe
I don't think you should know
Hurts too much, I'm sorry, I won't change it
