Triathlon

Something I should've said  
But it stayed inside my head  
I don't need you now

Nothing I could've said  
Would've changed what happened next  
I don't need you now

And it's over  
Really over  
Really over

Beg me to stay  
So I'll stay  
And I'll wait  
For the day  
They take you away

Beg me to change  
So I'll change  
And I'll pray  
For the day they rip you away

I'm a bit  
Closed off  
From the time  
I lost  
Made me sick  
Choked up  
Slit my wrist  
Door shut  
Let the blood  
Roll off of my hand

Something I should've said  
But it stayed inside my head  
I don't need you now

Nothing I could've said  
Would've changed what happened next  
I don't need you now

Let go  
It's over  
You don't  
Need closure  
You just  
Need sometime alone

And it's over  
Really over
