

All the masses come feel IRIE
Rejoice today, rejoice tonight
When you see me passing by
I'll be riding high like a kite
Jah Jah say free your mind
Keep faith cuz we live and not die
When you see me passing by
I'll be riding high like a kite
Jah Jah say free your mind
Keep faith cuz we live and not die

Those who are in power working iniquity
Those in poverty still trying to be meek
The tables shall turn in the after life
So my brothers and sisters
Rejoice for the goodness of life feel alright

Le canto a la gente que lucha y reza por paz.
Vengo a defender los derechos de la humanidad.
Venemos conbongo y cuerda, a cantar la cancion.
Venemos con fuerza a decir no, no babylon.
Por que sera, que a la gente le encanta jugar?
Solo abren la boca ellos, para blasfemar
Pues date tiempo mi hermano pa' meditar.
Cultiva tu propia manera de pensar

We never die, no we never die
Libertad, Libertad
Trodden never fallen
When I heard Jah Jah calling

In the early of the morning
Calming the proud talking
Never stopping the use of medicine in I herbal garden

Libertad, you can never take away
My mental freedom
Libertad, you can never take away
My mental freedom

Chanting these words haunting
Foolish men who are plotting
For the dark days that are coming
Walking through the gauntlet
Even if they were bombing
They can't stop the lion conquering
Libertad, you can never take away
My mental freedom

Libertad, you can never take away
My mental freedom
Libertad, Libertad
