

## Lost Paradise

Tribal Seeds

Hear I oh Jah Jah, Hear I plead unto you  
They rob I culture, they rob I land too  
Now that babylon run things  
All we see is some dread things  
Cuz in babylon system  
InI cant live now

In I lost paradise you push I to vex all time  
Such a different state of mind  
How am I to forward this vibe? yea

Hear I officer, don't take I herb away no  
Me just want to smoke it  
Try to cope with the world  
What make you better than I  
Me work hard just like you  
Me never cause no crime  
Through the eyes of the most high

In I lost paradise you push I to vex all time  
Such a different state of mind  
How am I to forward this vibe? yea
