

Sun N' Water

Tribal Seeds

Come forth let us place our seeds in soil
Come let the rain fall down to the earth
Let them that sit upon the rock, stumble
And I feel no sorrow for them that heard, yea
Let not babylon take the word out your heart
Be not chocked by deceptions of what?
Take your stance in the right position
Let your mind be not in pollution
For the truth shall lead you to be strong
Is the simple things that take you far...

Sun n' wat, sun n' water
Sun n' wat, sun n' water

They brainwashed us to call each other enemies
They send us out to fight, led by the beast, yea
But we nah want no want no war
We nah want no want no war
Sow not of flesh, lest you reap death

Sun n' wat, sun n' water
Sun n' wat, sun n' water

We nah want no want no war
We nah want no want no war
We nah want no want no war
We nah want no want no war

Sun n' wat, sun n' water
Sun n' wat, sun n' water
