

Warning

Tribal Seeds

This is your warn, warning
Come again in a rugged style
Born in babylon but raised by Jah
Modern school system inferior
In the east, come hail lion conqueror
Give I the teachings of the scripture
Media brainwash center
Spreading lies and spreading war rumors
Propaganda, me beg for more truth sir
Give me no words of an impostor
No you can't run from truth sir
Give me the words of Lion of Judah
Cunning is the tongue of a false preacher
Down pressing the youth for sensimilla
Focus them attention on little matter
Pressure everything to accept system
Sodom and Gomorrah is the USA's warning
When Tafari looked down he saw not one good man of them
Tragedy and calamity believe is upon us
Armageddon shall show her face on all us
In the east straight to the west
Fire couldn't stop ras from spread this message
In the north down to the south
Ice couldn't freeze the waves of this sound, come down.
This is your warn, warning

Born in babylon but raise by Jah
Iman a watchman of the savior
Come down with a crash like lightning thunder
Almighty I, blessed Yeshua
Rest my head, Jah will smash the curse we under
And I will sing while the world wonder
Come down... come down Lord... Come down...
Rise up and judge the world politician, the botty boy
system, the governments decision and the one world
religion.
The human condition, hollywood's rendition
The holy definition and the evil that we live in and
break the soul of the man that I have been
The freedom of sin is the song of redemption
It's all I have so I won't give in
If anyone no love Jah then the curse be on him
Come now... come now Lord... come now...

Warning, open your ears to a new sound coming

Heed to the wonders and the signs, Jah's returning.
Test my heart and mind! God is my defense!
Judge me o' Jah according to my righteousness

Jah is not the kind to strike without warning.
Only to those who are foolishly ignoring

The wisdom and the knowledge of his word given to me.
Has been written on my heart so I will not be deceived!

So feed me no bs of an imposter

They are the ones who shall reap disaster

Mercy to those, judgment comes with fire
I know my enemy, when he speaks he's a liar

Words like a razor, weapon of choice sir
And when me dead me voice shall be heard after
Hating what they fear, yes they are the cowards

O' Jah has spoken up against this place
That he will cut it off and nothing living shall
remain.
Throw away your scrolls when Jeremiah calls

All you shall witness when babylon fall
