Everyone who wants to party like crazy
Gather here
Jump even higher, rub-a-dum dum dum

Yah uh huh I wanna ride uh uh huh
I just wanna mess
This place up like crazy uh huh
Wanna go up high um...
Why do you ask? because I'm
I'm young and wild, I'm on fire
With a killer vibe and there's no tomorrow

Waterfall waterfall, a waterfall flows down
I go wherever my body takes me, click click then pose
You know what I mean
I'm a pitcher who throws whatever's in my hands
Cua cua like a goose
Don't hesitate, gather here
Yeah we're gonna party like

As if tonight's the last night, babe

On this blue ocean and the dark sky
Even if I get lost sometimes
I feel freer than before
I'm flying higher to outer space
Jump even higher, rub-a-dum dum dum

Gather here, yah yah
Jump even higher, rub-a-dum dum dum

I know you want it babe
Throw away everything in your head, do it babe
Put your hands up high and say ay
And that's what I like yeah

Ohh la la la la what's the problem?
Ohh la la, it's a party here
Everyone lift your left hand
Then brush your right foot
Lift your head and take two steps back
If you can't then sit and listen

Wake up in the morning
All the worries that tortured me, doesn't matter
I can feel it like magic
Like I'm dreaming
Oh honey
I'm closing my eyes from the pouring sunlight
Wanna hold my hand and fly? let's spread our wings
In your mind

On this blue ocean and the dark sky
Even if I get lost sometimes
I feel freer than before
I'm flying higher to outer space
Jump even higher, rub-a-dum dum dum

Move your feet even stronger like me
Every place I step on becomes music
(Everybody come play with TRI.BE)
When the darkness spreads and the sun sets
The sounds grow louder
Jump even higher, rub-a-dum dum dum

Gather here, yah yah
Jump even higher, rub-a-dum dum dum

I know you want it babe
Throw away everything in your head, do it babe
Put your hands up high and say ay
And that's what I like yeah

Ohh la la la la what's the problem?
Ohh la la, it's a party here
Rub-a-dum dum dum dum
