Dancehall

Tribes

Verse 1:
She's a gypsy queen, real tall and mean
She's an airplane, no one's ever seen
She's a firecracker, real dance hall master
She's a hurricane when you walk past her
She's a morning sun in the midnight
She'd sale her soul for all the sins
She'll come right at you, lil Cleopatra
You take all you got, and you give it to her

Chorus:
Did you see the nightmare in the sky(?)
A window to my mind
It leaves me hypnotized
Somewhere better
Did you feel that thunder hit last night
A poison in my mind
It leaves me hypnotized
Somewhere better

Verse 2:
She's a striptease, real hard to please
She'll cheer you up, bring you to your knees
She's a movie star, fast sports car
She a razor blade, she'll take you far
She's the ocean's cool, and your midnight ride
She's a devil's church, and a preacher's wife
She'll come right at you, lil Cleopatra
You take all you got, and you give it to her

Chorus:
Did you see the lightening in the sky
A window to my mind
It leaves me hypnotized
Somewhere better
Did you feel that thunder hit last night
A poison in my mind
It leaves me hypnotized
Somewhere better

Don't care if we're dancing
but that's the last dance

Chorus:
Did you see the lightening in the sky
A window to my mind
It leaves me hypnotized
Somewhere better
Did you feel that thunder hit last night
A poison in my mind
It leaves me hyá¹—notized
Somewhere better
