

Face To Face

Tribes

See yourself through the eyes
of someone else
would not turn u blind
if you weren't perfect
like everybody else?

come a little closer
and look me in the eyes
do you see me now
when I'm older
buried alive ?

wake up from a dream
in a strange new place
everything you had
has been taking away
and years from now
is not the same
would you recognize me ?
FACE to FACE

leave the day
you are too old to tell ur age
youu shut your eyes
but they won't open
drifting away
a brand new friend
with you since the very end
remember now
when we were younger
we always pretend

wake up from a dream
in a strange new place
everything u had
has been taking away
and years from now
is not the same
would you recognize me ?
