Beyond the Horror

Tribulation

Death still lives beyond the horror

The dead are forever more
Dwelling in the distant gloom
Infinite be the horror
That's stalking your every move

Death shall overcome

Seal into the seas of death
Ghastly vores in your head
Ride the demons left hand path
Embraced by darkness from the dead

Gaze into the face of fear
Stare into it's glearving eyes
Dying slow again it's near
Beyond death evil's rise

Death still lives beyond the horror

Beyond death

Death still lives beyond the horror - Death still lives
Embraced by darkness from the dead - Death still lives
Beyond death evil's rise - Death still lives
Satan lives beyond the horror - Satan lives

Death still lives beyond the horror
