

C.H.D: The Gore Attack

Tribulation

Urge awakening, mindlessness, macabre thoughts of death
Mutilation, carving through her flesh
Her cunt will disintegrate, her clit will burst
Now she will walk this earth with an uncontrolled thirst for blood!

Chemical injection, right into their veins
My mission today: to see them eat their brains
Turning 'em into zombies, bloodthirsty beasts
With chainsaw in hand I'm slicing up their feast
Festering on one another, lifeless and sore
Eating their own vaginas drinking their own gore
Never ending story, I'm slicing up some more!

Urge fading, mindlessness, macabre thoughts of death
Mutilated, carved through their flesh
Their cunts did disintegrate, their clits did burst
Now they wait for that sweet ecstatic thirst!
