

Lady Death

Tribulation

In the moonlit splendor of the night we move
Transcendent fire reflects in her eyes
In a violent burst of power
Through the mass' dreadful sounds
I dance with the Goddess
While the earth shakes in its grounds

Beautiful and severe
Graceful yet fierce
Lady Death
Black Madonna
Release your unbridled rage upon my soul

Terrible, majestic
Her love runs deep through time
Destroy my mind
Dear child of the ancient night
In the depths of your mystic darkness
I must die

Beautiful and severe
Graceful yet fierce
Lady Death
Black Madonna
Release your unbridled rage upon my soul
