Trouble

Trick Pony

I was sittin on the sofa
Heard the telephone ring
It was my younger sister Sara
Calling me from Aberlene
She said "I'm trying hard in college
But I'm doing really bad
I gotta figure out a way to break it to my mom and dad"

I said "If you think you've got trouble
And I don't doubt you do
You take what you've got
And make mine double
Yeah, 'cause I got a man
He's one of a kind
He's got every girl in town
Just a-waitin' in line
It may be long but he aint blind
I've got a feeling it's a matter of time
But if you think you've got trouble
Take a good long look at mine!

Yeah Let's just put this whole thing in perspective
If you could walk a mile in both my shoes
Oh the law would be much tougher than expected
'Cause I got a man who's just too good to lose
thats right

Well The smoke had finally cleared
I was sittin in the den
An hour and a half inta Gone with the Wind
The Yankees were a-comin' and the south was gonna fall
And there was old scarlett in the middle of it all

I said "if you think you've got trouble
And I don't doubt you do
You take what you've got
And make mine double
Yeah, 'cause I got a man
Who's one of a kind
He's got every girl in town
Just a-waitin' in line
It may be long but he ain't blind'
I've got a feelin' it's a matter of time
But if you think you've got trouble
Take a good long look at mine!

Oh if you think you've got trouble
Take a good long look at mine!
oh yeah

If you think you've got trouble
Now If you think you've got trouble
Oh you ain't heard nothing yet
If you think you've got trouble yeah
Well If you think you've got trouble
That's right
