

Dark Days

Tricky

It's like slum days
When you go away
When you go again
Let it go, my friend
It's like slum day
Ain't no way
No rainy day

It's like dark days that you go away
When you go again, ready to fly my friend

The cloud's break and I am colour blind
No shade of comfort in the prison of my mind
The cloud's break and I am colour blind
No shade of comfort in the prison of my mind

It's like slum days
When you go away
When you go again
Let it go, my friend
It's like slum day
Ain't no way
No rainy day

It's like a Monday took the tone away
Another hazy day

The cloud's break and I am colour blind
No shade of comfort in the prison of my mind
The cloud's break and I am colour blind
No shade of comfort in the prison of my mind

The cloud's break and I am colour blind
No shade of comfort in the prison of my mind
The cloud's break and I am colour blind
No shade of comfort in the prison of my mind
