

# Don't Go

Tricky

Don't go, don't move  
Don't lie, can't lose  
Smoking today  
Can't lose, no way  
Somewhere, lonely  
She finesses I'm so phony  
She punch a cake she fat like Tony  
(Gotta be kidding)  
I leave her lonely  
She like her own man  
She like a full man  
She like to hold me  
She like a full man  
She like to hold me

Come and bump on me slow  
Until you like where we go  
All the time that we spend  
That is the snow when it ends  
Come and bump on me slow  
Until you like where we go  
All the time that we spend  
That is the snow when it ends

It's my scene today  
[?] it's ok  
[?] is such a phony  
Politicians rape the church like an omen  
You think I'm crazy, it doesn't phase me  
I see a [?] amazing  
It's a new way, don't play  
I'll grow but won't pray  
(Gotta be kidding)  
It's my fault  
My brain  
My life  
My pain

Come and bump on me slow  
Until you like where we go  
All the time that we spend  
That is the snow when it ends  
Come and bump on me slow  
Until you like where we go  
All the time that we spend  
That is the snow when it ends

Come and bump on me slow  
Until you like where we go  
All the time that we spend  
That is the snow when it ends  
Come and bump on me slow  
Until you like where we go  
All the time that we spend  
That is the snow when it ends
