

# ESP

Tricky

Just around the corner  
Right around the bend  
I try to move forwards  
But backwards is my friend

Like magnets I attract to you  
Transparent, you, I can see straight through  
Find our weather pattern  
Your rings and I'm Saturn

Forces we can fight are  
Courses run right into each  
Other sources tell us we mix  
Oh so very well

Hypothetically I  
Soon know future for you or me  
I love supersonic  
Our love's alcoholic

Forces we can fight are  
Courses run right into each  
Other sources tell us we mix  
Oh so very well

Forces we can fight are  
Courses run right into each  
Other sources tell us we mix  
Oh so very well

Forces we can fight are  
Courses run right into each  
Other sources tell us we mix
