

Here My Dear

Tricky

Here my dear bring you near
Won't complain, contain my fear
World's insane with black rain
Where we go I don't know
Pains increase, where's the peace
Microphone like my tone
Fully groomed we're alone
You're no friend, hate me then

Every time I feel the rain
That's the time I feel the pain
I walk the streets and lights would glow
I hear my steps and I'm alone

Where's your stop load and lock
You can't block police men park
Winter come, splinter drum
See my pain then there so plain
This love far, truck my car
So insane reveal my name
This love true, swim into
I've been a fool I see through

Every time I feel the rain
That's the time I feel the pain
I walk the streets and lights would glow
I hear my steps and I'm alone

Every time I feel the rain
That's the time I feel the pain
I walk the streets and lights would glow
I hear my steps and I'm alone

Every time I feel the rain
That's the time I feel the pain
I walk the streets and lights would glow
I hear my steps and I'm alone
