

How's Your Life

Tricky

I'm here now how you know
How hard to sleep how hard to breathe?
I stay inside how hard to leave
How you doing how's your wife
You watch TV you think it's life
It's interesting how you been
Go down south and move to the house
Where's my friends where's it end
Life's a test 'cause we moving in

I watch you fall down any day
I watch you fall now anyway
I feel him breathing at the dark
I fear leaving as they walk
I watch you fall down any day
I watch you fall now anyway
I feel him breathing at the dark
I fear leaving as they walk

How's it is how's your lies
Bleed out rappers took their guns and cash

The heat subsides then we go
To ride on [?] till it ends
To rely on friends never [?]
There's only you there's only you
There's only truth
See the truth we enjoying the view
Cause we lonely now count to 10
Go around the world and back again

I watch you fall down any day
I watch you fall now anyway
I feel him breathing at the dark
I fear leaving as they walk
I watch you fall down any day
I watch you fall now anyway
I feel him breathing at the dark
I fear leaving as they walk

Breathe
We won't ever die
I watch you fall down any day
I watch you fall now anyway
I feel him breathing at the dark
I fear leaving as they walk
I watch you fall down any day
I watch you fall now anyway
I feel him breathing at the dark
I fear leaving as they walk
