

Like a Stone

Tricky

And I've been solo
Texture like real low

Feels like I am a stone
Never cried

So I try solo
Am I dreamin' youth
Your voice sounds resting
When I start to running
When drugs do nothing

Feels like I am a stone
Never cried
Calming lack of words
Feels like I am a stone
Never cried
Calming lack of words

And I could kill someone
Leave your body like a normal

Like a stone
You're alone
Make it disappear slow
My daddy call you blood clot
He'll lick you with a gun shot
I think of you sometimes
Trying to inject some

Feels like I'm a stone
Never cried
Calming lack of words
Feels like I'm a stone
Never cried
Calming lack of words
