

Lonely Dancer

Tricky

Spun around in circles
Till the compass fades
There's only miracles
Till my mission fails

Upon my
Upon my
Upon my

I'm just your vehicle
For when your system fails
I'm just so cynical
With all your fairytales

Upon my
Upon my
Upon my

Out too late, you start to fade
We're all strangers
We fade to grey and lay awake
Through all those dangers
It's only May, but when you take
I lose major
The game is strange, we aren't the same
I'm just a stranger

I run around in circles
Until I feel so low
Searching for answers
Wish you wouldn't go

Searching for answers
Lonely dancers
Searching for answers
Lonely dancers

Out too late, you start to fade
We're all strangers
We fade to grey and lay awake
Through all those dangers
It's only May, but when you take
I lose major
The game is strange, we aren't the same
I'm just a stranger
