Tricky

I'm out of time oh that's fine
Make it plain your silly games
Out of sight out of mind
Please don't play please rewind
Miss you much tasting touch
On my knees I try to please
My pains on pause
It's not like yours
When night time come
Sleep will keep me calm

Night time come see the moon
Run and hide should really side
(Silly games)
Come taste my fame and walk my shoes
But you might lose
You just don't fucked you silly cunt
You might like stress you can do your best
I'm the best but I feel like a mannequin
I smoke and drink I float I sink
