

## Running Wild

Tricky

We say life is meant this way but we break  
We say we are born this way, so, why change?  
Seeping down, deep and down in me  
Holding on, 'cause I can hardly breathe  
It's darker now, the silence brings me sleep  
I'm yearning for a hunger in my dreams, yeah

We are young and we are free  
But we don't know how we are meant to be  
If we are meant to see  
All this trouble in my mind  
My heart is searching far and wide, wide

Baby boy running wild  
Said my mind is older now  
I can't block it out  
Baby boy running wild  
Said my mind is older now  
I can't block it out  
Baby boy running wild  
Said my mind is older now  
I can't block it out

We say life is meant this way but we break  
We say we are born this way, so, why change?  
Seeping down, deep and down in me  
Holding on, 'cause I can hardly breathe  
It's darker now, the silence brings me sleep  
I'm yearning for a hunger in my dreams, yeah

We are young and we are free  
But we don't know how we are meant to be  
If we are meant to see  
All this trouble in my mind  
My heart is searching far and wide, wide

Baby boy running wild  
Said my mind is older now  
I can't block it out  
Baby boy running wild  
Said my mind is older now  
I can't block it out  
Baby boy running wild  
Said my mind is older now  
I can't block it out
