

Sea Beams

Tricky

I've seen attack ships on fire off the shoulders of Orion
And listened to politicians constantly lying
I've watched the sea beams glitter in the doubtful hours
And then we drive through the city we once stayed
I've watched the sea beams

And the shadows on my face
With a shallow leave no trace
And the shadows on my face
With a shallow leave no trace
And the shadows on my face
With a shallow leave no trace

I've seen attack ships on fire off the shoulders of Orion
And listened to politicians constantly lying
I've watched the sea beams glitter in the doubtful hours
And then we drive through the city we once stayed
I've watched the sea beams

I've seen attack ships on fire off the shoulders of Orion
And listened to politicians constantly lying
I've watched the sea beams glitter in the doubtful hours
And then we drive through the city we once stayed
I've watched the sea beams
