

## Surface

Tricky

It was so long, I go  
I'm so lost, I go  
I first saw your face  
I first saw your face

You run to me once, come to me, run  
There's no bother  
You run to me once, come to me, run  
There's no bother

Come with me, we can go  
We can fly with the soul  
Come with me, we can go  
We can fly with the soul  
Come with me

You don't know how long it's been  
Feel like I understand  
I turn into water soon

You run to me once, come to me, run  
There's no bother  
You run to me once, come to me, run  
There's no bother

Come with me, we can go  
We can fly with the soul  
Come with me, we can go  
We can fly with the soul  
Come with me

You don't know how long it's been  
Feel like I understand  
I turn into water soon

You run to me once, come to me, run  
There's no bother  
You run to me once, come to me, run  
There's no bother
