

Throws Me Around

Tricky

I never call on winter
I never follow in though
It never fails

You never calm you, either
I never find your photo
You never call me, either
I never call

Kills when it's done
Throws me around
I always fall for this

Kills when it's done
Throws me around
I always fall for this

I've always been a sinner
I'm coming round for dinner
It always fails

I always fall in river
And shake and shiver
Return to mother
It always fails

Kills when it's done
Throws me around
I always fall for this

Kills when it's done
Throws me around
I always fall for this

Kills when it's done
Throws me around
I always fall for this
