

## Voodoo Cherry

Tricky

I step through time  
My light losing mind  
I sleep through the night  
Real life, raising cry

We creep through the night  
Too deep, open eyes  
Go to sleep pushing wide  
Heaven's teeth, open wide

Suddenly I'm angry  
You're just like hot  
You're just like hot  
Luckily you're loving me  
You're loving me

I step through time  
My light losing mind  
I sleep through the night  
Real life, raising cry

We creep through the night  
Too deep, open eyes  
Go to sleep pushing wide  
Heaven's teeth, open wide

Suddenly I'm angry  
You're just like hot  
You're just like hot  
Luckily you're loving me  
You're loving me
