

## Wait For Signal

Tricky

I keep her in the middle  
While she waits for signal  
My brain's a busy signal  
I guess it hurts a little  
Let's just talk a little  
Things we care about  
You can be my middle  
And we can breathe it out  
I guess you're even now  
You don't believe me, how  
You'll even know  
If you don't come?  
I'm in the middle  
I'll wait for signal  
I'm in the middle  
I'll wait for signal

Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about

Why don't you try a little?  
You make me feel so little  
I'm in the middle now  
And my heart's so brittle  
Why don't you look at me?  
My love for you  
My love for you  
It comes for free  
Just forget you're embarrassed  
Even love don't last  
I used to make you heckle  
When you touched my middle  
Touch me slow  
I used to make you giggle  
Just let me know  
I'll keep you in the middle

Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about

Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about  
We go around and we talk about  
Sometimes we walk about

We go around and we talk about  
Sometimes we walk about  
We go around and we talk about
