

Well

Tricky

Used bells probably sells
More if fells stuck in wells
You do well probably sell
And do a mess though
Now he works in Tesco
Well can't fell
Used to be a rock star
That no one gives a fuck star
Well can't do well out for himself
Not for wealth
Don't care for fame there for the brains
And I do well I'll probably sell

You're tired now and it's far gone
It's far soon and its far wrong
You're tired now and it's far gone
It's far soon and its far wrong
You're tired now and it's far gone
It's far soon and its far wrong

Well did you do well
I used to rock in broad plain
Rock a little gold chain
Yeah I'm in hell
Can't you tell can't you tell
You lived the dream how'd you mean
Moving lose move with the team
Well you're doing well
Well you're doing well

You're tired now and it's far gone
It's far soon and its far wrong
You're tired now and it's far gone
It's far soon and its far wrong
You're tired now and it's far gone
It's far soon and its far wrong

Yeah
I used to rock in broad plain
Rock a little gold chain
Yeah!

You're tired now and it's far gone
It's far soon and its far wrong
You're tired now and it's far gone
It's far soon and its far wrong
You're tired now and it's far gone
It's far soon and its far wrong
