

When It's Going Wrong

Tricky

Call me when you're going back to get it done
I know that you think you're right, but
You're just numb
Feel it when you're going down and you get it done

I saw it in your eyes
I saw it in your eyes

Call me when it's going wrong
I'll understand
Catch me when I'm sinking into quicksand
Call me when you're feeling down and you'll hold my hand

Call me when it's going wrong
Call me when it's going wrong
