

## Steps

Trik Turner

Help me find a way  
Or a good reason  
To get up out of this bed  
It seems no matter what I do  
Or how much I make  
It's never good enough  
To face the same problems  
The same debts  
Sometimes even adds more stress  
And I don't know who claimed  
This a simple life  
Try to walk in my shoes  
See through my eyes  
People just don't seem real  
Cause not matter what I do  
Or how much I make  
Is ever good enough

Working takes up so much time  
It eats your life away  
It's hard to hold on to what I have  
Cause I keep finding myself

Five steps forward  
Ten steps back  
Tryin' to get ahead  
But keep fallin' off track  
Running around and around again (repeat chorus)

To pickup where you left off  
Is all you have to look forward to each day  
How do you get ahead  
When you're behind  
And the hole you've dug gets deeper  
Just to quit tryin is such a cop out  
i couldn't cheat myself  
And I don't-who claimed  
This a simple life  
All the money I make barely gets me by  
But I keep hanging on  
Cause not matter what I do  
Or how much I make  
Is ever good enough

Working takes up so much time  
It eats your life away  
It's hard to hold on to what I have  
Cause I keep finding myself

Five steps forward  
Ten steps back  
Tryin' to get ahead  
But keep fallin' off track  
Running around and around again

All the money I make barely gets me by  
All the money I make is never good enough

Working takes up so much time  
It eats your life away  
It's hard to hold on to what I have  
Cause I keep finding myself

Five steps forward  
Ten steps back  
Tryin' to get ahead  
But keep fallin' off track  
Running around and around again
