

Full Speed Ahead

Trillium

I woke up screaming over the ocean
At night it sinks into me
With what I'm dealing

And what I've chosen
I see it's all up to me

Let it breathe or set it free
I've got to figure out what works for me
Reliving a beginning
It's time to sing full speed ahead
And I'm giving it my best shot
Full speed ahead
And I'm grateful for all I've got
Full speed ahead

I slay the giants and jump the hurdles
A vow of dedication to fill the silence and close the circle
And there are expectations

I live and breathe a living dream
I'll always figure out what works for me
Shifting means is gonna bring velocity
Full speed ahead
And I'm giving it my best shot
Full speed ahead
And I'm grateful for all I've got
Full speed ahead

And as I breathe everything I dreamed I'd be
The odyssey is set in motion
Alacrity
Making a comeback
'Cause I believe
Yes I believe

So let it be what it can be
I'll always figure out what works for me
Pouring steam
Tenacity
I'll keep on singing
Full speed ahead
And I'm giving it my best shot
Full speed ahead
And I'm grateful for all I've got
Full speed ahead
