

# Full Speed Ahead

Trillium

I woke up screaming over the ocean  
At night it sinks into me  
With what I'm dealing

And what I've chosen  
I see it's all up to me

Let it breathe or set it free  
I've got to figure out what works for me  
Reliving a beginning  
It's time to sing full speed ahead  
And I'm giving it my best shot  
Full speed ahead  
And I'm grateful for all I've got  
Full speed ahead

I slay the giants and jump the hurdles  
A vow of dedication to fill the silence and close the circle  
And there are expectations

I live and breathe a living dream  
I'll always figure out what works for me  
Shifting means is gonna bring velocity  
Full speed ahead  
And I'm giving it my best shot  
Full speed ahead  
And I'm grateful for all I've got  
Full speed ahead

And as I breathe everything I dreamed I'd be  
The odyssey is set in motion  
Alacrity  
Making a comeback  
'Cause I believe  
Yes I believe

So let it be what it can be  
I'll always figure out what works for me  
Pouring steam  
Tenacity  
I'll keep on singing  
Full speed ahead  
And I'm giving it my best shot  
Full speed ahead  
And I'm grateful for all I've got  
Full speed ahead
