

All Alone Part 1

Trinidad Cardona

I can tell why you try
'Cause I'm not there when you missin' me
Texting me all damn night
Tryna see what's gotten into me

And I know you wanna work it out
But right now it's too sus- (suspicious)
And I know you wanna talk it out
But I'm not sure 'bout us

Baby I know how you walk
Baby I know how you talk
Baby I know how you are
Baby you playin' the part

You running around for my cardio
You breakin' my heart, end up chasing you
You doing what all of the players do
Yeah you do what you said you would never do

But now my baby's all alone
She call every night and she cry on the phone
She tell me she want me to talk but I don't know how
And now my baby never gon' come round

And now my baby's all alone
She call every night and she cry on the phone
She tell me she want me to talk but I don't know how
And now my baby never gon' come round

I can tell why you try
'Cause I'm not there when you missin' me
Tellin' me it's alright
Never knew why I'm feeling differently

Found somebody, I'm being honest
There's somebody, she make me want it
There's somebody, make me euphoric
There's somebody in Arizona

But now my baby's all alone
She call every night and she cry on the phone
She tell me she want me to talk but I don't know how
And now my baby never gon' come round

And now my baby's all alone
She call every night and she cry on the phone
She tell me she want me to talk but I don't know how
And now my baby never gon' come round
