

## Find Out

Trinidad Cardona

You know I heard about ya  
They told me to be cautious, yeah  
So let me know about you  
'Cause I need to find out for myself  
If I want it then I'll get it  
If you're lonely then come with it  
And by morning, we might know

While they say she's so dangerous  
She's way too much  
If I wait she'll be moving on  
She'll be moving on  
Me mata su mirada  
Me pongo listo pa' comenzar  
Don't waste my time tonight girl  
She told me she don't wanna make love

Some people say you play too rough  
I gotta find out for myself  
I just wanna know you one on one  
I gotta know if you are for real

She says, "You wanna feel good?  
Come find out"  
"Is it good?"  
"Come find out"  
She said, "Come find out"  
She said, "Come find out, find out"

I'll work your body  
I'll keep this shit a secret, I won't tell nobody  
No, no, no-no-no  
And you can tell me about your fantasy  
Come have your way with me  
Don't gotta worry 'cause your man ain't home

She says, "You wanna feel good?  
Come find out"  
"Is it good?"  
"Come find out"  
She said, "Come find out"  
She said, "Come find out, find out"  
"Come find out"  
"Is it good?"  
"Come find out"  
She said, "Come find out"  
She said, "Come find out, find out"  
"Come find out"  
"Is it good?"  
"Come find out"  
She said, "Come find out"  
She said, "Come find out, find out"
