

I Can Take You Home

Trinidad Cardona

Bottles on the floor, models on the dresser
Seen you through the smoke, took you out that Tesla
Never seen a ghost, only got one question
Where you wanna go, where you wanna go?
Where you wanna go? Yeah
'Cause I been doing the most to impress you, baby
But you

You been getting low low low low low
Everybody know know know know know
Bottles on the floor floor floor floor floor
Oh no, I can't take you, whoa

Bottles on the floor, models on the dresser
Seen you through the smoke, took you out that Tesla
Never seen a ghost, only got one question
Where you wanna go?

You been getting low low low low low
Everybody know know know know know
Bottles on the floor floor floor floor floor
Oh no, I can't take you, whoa

Don't forget the message
Sweet hearts and pretty faces
Need an intervention
And did I mention, did I mention?
I can feel the tension
Just come close so we both know
The answer to the question
Beautiful and reckless

You been getting low low low low low
Everybody know know know know know
Bottles on the floor floor floor floor floor
Oh no, I can't take you, whoa

You been getting low low low low low
Everybody know know know know know
Bottles on the floor floor floor floor floor
Oh no, I can't take you, whoa
