

Wake Up

Trip Lee

Oh, yeah
Yes, sir ('95)

None of my (Woo)
Friends got boats, why float? Just tight-walk ropes
No run and hide (Hide)
On my side, it shine inside my quotes (Yeah)
My homie called me, I told him (Huh?)
You wanna shine, start dozin' (Uh-huh)
'Cause they don't like them eyes open (Woo)
But why pose when we chosen? (Yessuh)
Tell them my aim's twofold
Reflect His rep, recruit some mo' (Mo')
Never die, next time, yes
Debt-free, we stepped through that loophole (Uh-huh)
Ninevites look just like me (Like me)
Philistine past so grimy (Grimy)
Venom might get in my path
I been in my bag, reach when they try me (Try me)
Ooh, you know the game
(You know the game, you know the game)
They tell you just go for gain
(Go for the gain, go for the gain)
I feel woozy in my brain
(Brain, ayy, yeah, yeah)
Want us woozy 'til we faint

Wake up, wake up, wake up
Lulla-lulla-lullaby
Right, you don't sleep with another lie
Lulla-lulla-lullaby-by
Wake up, wake up, wake up
Lulla-lulla-lullaby-by
Wake up, wake up, wake up
Lulla-lulla-lullaby-by

Why they handin' us mattresses? (Ooh)
Nobody asked for this (Ooh)
And when I tell 'em my past
They try to laugh at this (Yeah)
Nah, they don't give us a chance
Give us a fib then give us a dance (Yeah)
Got that mission in advance
So we can decide the strip where we land (We land)
Tell 'em I'm back and I got that on me
Few and we proud, but we not that army
Some of us folding like origami
But I got warriors all around
Of course, we got goals
Off my course did I go (I go)
Hit that floor, then I roll
Back on path with my flow, flow (My flow)
Ooh, you know the game
And you can sell a bunch of lies
If they really sweet (Game)
Bottle-fed to the masses
On any street (Game)

Slip us ten Ambien
'Til we feel at peace
Wolves jump the fence, counting sheep

Wake up, wake up, wake up
Lulla-lulla-lullaby
Right, you don't sleep with another lie
Lulla-lulla-lullaby-by
Wake up, wake up, wake up
Lulla-lulla-lullaby-by
Wake up, wake up, wake up
Lulla-lulla-lullaby-by (Yeah)
Wake up, wake up, wake up

All things fall apart, decays our lot
Pleasures fading, sedating, we're great when we're numb
La-di-da-di, we party like I'm with the dogs
You on demon time, realize God owns the clock
Ayy, boys better watch, uh
You don't see the plot, tell 'em off top
Won't trade my soul for career good, if you never see K-Pop
K won't stop
Live for the bust down, hundred years
You and the buss down are dust now
They talk jewelry, but I'm talking about the Judge now
Before the Lord touch down, hands up, boy, wake up

Wake up, wake up, wake up
Lulla-lulla-lullaby
Right, you don't sleep with another lie
Lulla-lulla-lullaby-by
Wake up, wake up, wake up
Lulla-lulla-lullaby-by
Wake up, wake up, wake up
Lulla-lulla-lullaby-by
Wake up, wake up, wake up

Wake up, wake up, wake up
Wake up, wake up, wake up
Wake up, wake up, wake up
