

Badboi

Triple One

Yep, mullet flicking my black mane
I crack chains, don't act sane
A sharpshooter just like I'm Max Payne
A splittin' image a warlords
Decapitating rappers with two swords
Malevolent we rollin' in war hoards
Fuck em they never gave me the knowledge
I can't empower the children
With kindness or tenderness
I'm seeing red
I march an army, the cult figure
Drink malt liquor, the cold liver
A soul killer we murder excellence
Wet panties I pick em up and I flick em off
Pay ticket cost the complaining it made we wicked soft
I clap cheeks like back hands from Van Dam
Feed masses off the back of a chariot, while I bam-bam
The mic is perfectly weighted up when a pull it
Wing it hard with the secrets of alchemy to bite the bullet
They'll never take me alive commit Seppuku
And live on through my children and stories cause I got buku

Eeny, meeny, miny, moe
Catcha girly by the toe
If she squealing let it blow
Buy her dinner walk her home

I been a bad boy, I been a bad boy
I been up all night babe, I been up all night babe
I been a bad boy, I been a bad boy
I'm just try'na get off that thing
Where you heading? Downtown
You could get it, Downtown
Where you heading? Downtown
I'm just try'na get downtown babe

You should wear protection I'm the best disease
I'm getting freaky with some chikkis on some ecstasy
I'm like pistol Pete when I drop my jeans
And my finger feeling happy I might press the g, less go
I bring the terror, I walk it in with double leathers
Panic force yeh, we the ones you looking for
You a kid, you a cat, you a bitch
I run it back, drop a stack, slip a disk
I'm at the disco
Tryna get a bikkie
And get decked
With the crew but a kitty
Won't leave tryna sign me on her titty
Like fuck girl, I just want a beerie
I'm the dark knight swinging in a bar fight
Ride Gotham like a mother fucking half pipe
I could see the whole world through a glass I'ma
Put the P at the end of an R.I

Eeny, meeny, miny, moe
Catcha girly by the toe

If she squealing let it blow
Buy her dinner walk her home
