Fuck it I'm Large, bring more grime then a bucket of bugs

DOOOOOOOOOO-ZZZEEEEEEYYY

(Triple ones go hard)

Like a techno-rave in a double garage fuck it I'm up

Middle fingers up throat full of tar I am a star

Gunn hittem with the bass

Blow so hard then I hittem in the face

Drink all day Obi hittem with the case

Running shit all the time then I hittem with the chase

VB six-pack, 3 pack long neck

She better have that long neck long Neck

Strong neck, wet throat sex smoke sex

Got to hit that and it was

Only the other day, thought it was your girlfriends birthday

She called me on a Thursday

Lonely the other day I got a hot butt on my work break

Treat my face like an ash tray

Dropping bars and all arts on a daily basis

Only thing you dropped were nuts when we showed our faces

Yeh I showed faces

Yeh I cold the cases

Then I drank shit till my face went slip

Down to the clit fuck around get lip

I'm off one, I'm off one

2 to 3 with that coffin

Put the nail in the neck never speak only step

Go hard, go hard, go hard

(Triple ones go hard)

I locked his eyes and stole my time

Squeezed him slow till he went blind

Took his clothes and stole his mind

And the snow falls soft on my face that night

Squeezed him slow till he went blind

Took his clothes and stole his mind

I locked his eyes and stole my time

Squeezed him slow till he went blind

Took his clothes and stole his mind

And the snow falls soft on my face that night

Squeezed him slow till he went blind

Took his clothes and stole his mind

Like I stole that bus, then I killed them kids

(Why you kill them kids? Why you kill them kids?)

Off the cliff, bounce with this

Hit the water, cut the corner

Said it was me never touched your daughter

While she grabbing at my neck, (While she grab grabbing on my neck)

Put acid in your becks

Fuck a Beck's, VB cans all the way to long necks

Burnt my belly, and bled my line  
Guzzled it down till I nearly died, cause
