Latex

Triple One

The latex is on, she whip out the cream
Naked I know but she gets tired of me
Lay on the floor, pull up the key
Hate waking up, what's inside of me?

The latex is on we under the sheets
Face on the wall but her grip tight on me
Pray to the fall, pull up the heat
Stay for it all when she in time with me

I don't wanna see you so deep inside of me
I just wanna see you there so I breath
Pull it off slow, teach me how you feel
Show me what you know, make it feel real

If it's all wrong then it's meant to be
Up all night long, sugar came to me
Skin tight pressure tryna make you bleed
Seeing bright lights feel the ecstasy

I see reflection in your eyes, mine are closed
I feel the imprint of your thighs lose control
Oh yeah, it's alright, my dreams coincide
Oh yeah, it's alright, lady hold me tight

The latex is on, she whip out the cream
Naked I know but she gets tired of me
Lay on the floor, pull up the key
Hate waking up, what's inside of me?

The latex is on we under the sheets
Face on the wall but her grip tight on me
Pray to the fall, pull up the heat
Stay for it all when she in time with me

Seven reason
She soaking and I'm feeling her core
Sunrise Phoenix
Her touch, but I'm cheating the fool
Oh lord how I've been waiting
Lady you sweat impatient
She close I want you closer
Just kill me, don't kill me

The latex is on, she whip out the cream
Naked I know but she gets tired of me
Lay on the floor, pull up the key
Hate waking up, what's inside of me?

The latex is on we under the sheets
Face on the wall but her grip tight on me
Pray to the fall, pull up the heat
Stay for it all when she in time with me

What's inside of me?
What's inside of me?
