Fuck em, cause I came in for the one
I break it up
Bitch and now you're fucking with the one
I break it up
Fuck em, cause I came in for the one
I break it up
Bitch and now you're fucking with the one

Bitch and now you're fucking with the

Back to games, twisted sister out my lane
Fuck you sayin'
Hold my name up in your mouth, you'll get the pain
Get the pain
Smell the death, speak my name you know my worth
Felt my image in the dirt
But my spine a part of earth
Cut my skin, smell my blood, hold my dick
Hold my cup, give a fuck
Fuck a bitch, fuck and suck
Get a nut
That's just it
Hold my tongue but she's a slut
That's enough
I'mma roll up on her hips and kiss the sun
Wet wet, go drip drip
Bommyknocker in my grip grip
Put a left nut on her lipstick
Got a default in a wrist flick
But I back up like a 2 year
Finna fuck now when the brew hits
I'm a big shot in a black top
But my shit bang so it non stop
Run a project like a Van Gogh
Comin' correct like a chip of
Smelling a bit like a wet dog
Going in hard off the old block
47 I ain't fuckin' with it, guess it

Fuck em, cause I came in for the one
I break it up
Bitch and now you're fucking with the one
I break it up
Fuck em, cause I came in for the one
I break it up
Bitch and now you're fucking with the one
I break it up
Bitch and now you're fucking with the

Move it slow so outrageous
No it's not for entertainment
Move it until you break it
People with slimy faces
Move it to break my patients
Itching irritations
Want more segregation, from these plebs
Leave you dead, pull the led

From these veins
Need a crane for my brain
Heavy head, you're the pigeon to my bread
And I'm beggin you spark it off so I can drop you to the
Floorless flow
Fuck 'em if they corny though
Lames are just a fucking joke
I'mma blow it up in smoke
Think I'm gonna break my neck
I'mma take it step by step
Think I better pay my debt
God you better pray it ends

Play the end, the same again
And we pray the end is over man
Play the end, the same again
And we pray the end is over man
Play the end, the same again
And we pray the end is over man
Play the end, the same again
And we pray the end is over man
Fuck her cus I came here for the pussy
