

# Space Boogie Anthem

Triple One

Kick you in the head like Tekken  
Little bitch, what you reckon?  
X-X-Square Yoshimitsu with the weapon  
This assault, where's the pepper?  
Bitch I got that John Wick drip  
With my girlie in a pink tie  
Double barrel coke straw  
Sipping on a Mai Tai  
Ducking in a drive by  
Rappers playing sidelines  
I was watching Hi-5, whoops

They say Marty be the best, yep Marty be the finest  
Kiss on my cheek, let me kiss on your highness  
Piss by the shed, two by the bed  
Debbie want bread and Marty want head  
All I wanna do is have some fun  
Rocks in my socks and smoke in my lung  
Vibe you can feel it, drugs you can deal it  
Space boogie boys disco Marty kill it

Shutup  
It ain't a pickle it's a gherkin  
Imma bust a nut on a boat in the ocean  
Wreck that thing till she happy that it's hurting  
Peep that brain like a surgeon

In my underpants, I am wonder man  
Why you lying man, I'm the finest man  
Moët in my bladder, dead u like an adder  
Flip it over and start the boat again

She pop and lock like a pill-y  
Doing twerk moves in the club tryna get me  
I told her stop that's silly  
Keep my legs shut while I play More Chilli  
Girl I'm bout conversation  
Don't go to the club unless it's obligation  
I can show you love like we on vacation  
Laying in the sun, that's an invitation girl

I'll pick you up at three  
We can go get a ciggy and a coffee  
Or whatever that floats your boat  
Come kick it with me  
We can bang it in the city to old CDs  
Or whatever that floats your boat

Cocktail sauce on my brand new blazer  
Shadow box Nooks in the stu like a laser  
Gimme some of that, gonna show me what you're made of  
Brace to your face I'm a dom-dominator

Cos we dons to most cats, we stomp they lay flat  
Throw salt like plane Jatz, they talk, I don't rat  
You pitch I swing bat, hit six on door mats  
Keeps tens on my lap, encore but no clap

Gimme kisses, oh baby you turn me on  
All I want is your touching and then you're gone  
Help me out help me out, know I got the charm  
Touch me in the wrong way, I can be so lovely

She swallow arm like a catfish  
I know two skateboard tricks  
Ollie and a back flip  
Stroke my lamp like Aladdin with the magic  
Carpet, really neck a Shoey then I spark it  
Fuck Nerve, my shit way harder

I'll pick you up at three  
We can go get a ciggy and a coffee  
Or whatever that floats your boat
