Call me when you need
Call me when you need
Call me

Back pedal on a peon
Got powers like little Dion
I'm Elon Musk
Rolling around in a Tesla
Can't fuck with them, they extra
I'm charged up, I'm fired up and I'm rolling around, heavy meta
l
They wanna send me to the Heaven gates, but I'm chilling like a
Devil
My big brother got kilos but they started from a damn pebble
It's the real me, not no ego, man, I'm on a whole 'nother level
Now I rock this demons at play, like a whole damn rebel

Never thought I would make it up out of that ghetto
I've been chilling up in space time, and I am on a whole 'nothe
r shuttle
And I'm with my bitch sipping space wine, let her hair down lik
e Rapunzel
With the whole gang, 'bout to fuck the city up like a goddamn G
undam
Can't believe that your mind fried 'cause you went down that tu
nnel
And I keep me some water, my bitch drip like a puddle
I ain't worried about a damn thing, I just sit back with that c
utter
Play games with the gang, little nigga then you be in trouble

Call me when you want
Call me when you need me
Call me when you want
Call me when you need me
