

Throw It Away

Trippie Redd

Take my love, take my love
Oh baby, please don't take my love, take my love
Oh baby, please don't take my love, take my love
Oh baby, please don't take my love, take my love, oh
Yeah
Big 14, you know what the fuck goin' on

Take my love and throw it away, no
Take my love like it's going away
Take my love and throw it away
Take my love and throw it away
Take my love like it's going away, hold on
She take my love and throw it all away, yeah
She take my love like it's gon' go away, hold on
She take my love, yeah, yeah, yeah

Shawty, throw my love away, throw my love away
Throw my love away, throw my love away, yeah
Throw my love away, uh, yeah
Shawty off them drugs, tryna feel the buzz
I just wanna feel your love, so hold me real tight
I said I'll be there, baby girl, from the day to the night
When you walked this way, you took my soul like a thief in the
night, yeah

I just need love so bad
I just need you alone
Could we please stay, don't go home
Oh, don't throw my love away, don't throw

Take my love and throw it away, no
Take my love like it's going away
Take my love and throw it away
Take my love and throw it away
Take my love like it's going away, hold on
She take my love and throw it all away, yeah
She take my love like it's gon' go away, hold on
She take my love, yeah, yeah, yeah
