## **Here Comes Temptation**

## **Trisha Yearwood**

When I see you I'm drawn to you There's a certain look in yours eyes It's hard to say no to this feeling No matter how hard I try Catch me if I'm falling to you Catch me if I'm breaking away

Oh I'm looking at paradise Oh I'm looking at paradise Here comes temptation Tempting me with you Here comes temptation Tempted to get close to you Here comes temptation Tempting me with you

If you were to know my secret I wouldn't feel so shy Sometimes I think you can see it It's something I can't hide All you'd have to do is touch me And all my resistance would melt away

Oh I'm looking at paradise Oh I'm looking at paradise Here comes temptation Tempting me with you Here comes temptation Tempted to get close to you Here comes temptation Tempting me with you

I'll have to wait until my chance comes by I know that you will be mine

Here comes temptation Tempting me with you Here comes temptation Tempted to get close to you Here comes temptation Tempting me with you
