

# Something Kinda Like It

Trisha Yearwood

If love is a river baby I'm in a drought  
I'm looking for the kinda thing that people sing about  
Everybody tellin' me you'll know it when you find it  
I'm looking for love or something kinda like it

I wanna hold your hand when you're walking down the street  
I wanna be the one who can make your heart beat  
I'd rather have forever babe but I could overnight it  
I'm looking for love or something kinda like it

Maybe it's the real thing  
Maybe it's just a little love illusion  
What's the difference baby  
I could use a little confusion

I wanna be the medicine you can't stop taking  
I wanna be the one who can leave your body shaking  
Whatever you got you know I'll take it I'll buy it  
I'm looking for love or something kinda like it

The one, you could be the one  
Or we could just have a little fun  
Whatever it is whatever it ain't  
The pond just needs a little rain

How come everybody makes it look so easy  
If they can do it I can do it baby come and see me  
If it's only for a little while I won't mind it  
I'm looking for love or something kinda like it

Maybe it's the real thing  
Maybe it's just a little love illusion  
What's the difference baby  
I could use a little confusion

Well I'd rather have the real but I'll take an imitation  
Just gimme what you got and I will use imagination  
Beggars can't be choosers and so baby I've decided  
I'm looking for love or something kinda like it  
Mmmm, something kinda like it  
I'm looking for love or something kinda like it
